AWARDS

- 1980 Evelyn Hamilton Trust Memorial Prize**
Inaugural prize winner
Best Scientific Presentation at Australian Orthopaedic Association Annual Scientific Meeting
- 1981 Zimmer Overseas Travelling Fellowship**
Edinburgh, Scotland. 12 months
- 1992 American, British, Canadian Travelling Fellowship**
Every two years, one Australian Orthopaedic Association member is selected by a subcommittee of the Board of Directors to join four UK Fellows, one each from New Zealand and South Africa, for a six-week tour of orthopaedic centres in Canada and the United States of America. The Fellowship offers the recipient an exceptional academic experience and is very highly regarded by all participating orthopaedic associations. It has been awarded 26 times since 1954.
- 1994 Best Conference Paper (Clinical Science)**
The Effect of Accelerated Rehabilitation on the Results of Endoscopic Anterior Cruciate Ligament Reconstruction
National Annual Scientific Conference in Sports Medicine, Brisbane
- 1995 Research Excellence Award**
A New Technique of Endoscopic Reconstruction Using 4 Strand Hamstring Tendon Autograft and Interference Screw Fixation - Preliminary Clinical Results
Australian Conference of Science and Medicine in Sport, Hobart
- 2001 Evelyn Hamilton Trust Memorial Prize**
A Five Year Prospective Comparison of Patellar Tendon Versus Four Strand Hamstring Tendon Autograft in Arthroscopic Reconstruction of the Anterior Cruciate Ligament
Best Scientific Presentation at Australian Orthopaedic Association Annual Scientific Meeting
- 2006 Australian Orthopaedic Association Award for Services to Orthopaedic Research**
Inaugural award recipient
This award recognises significant contribution by an AOA member to international orthopaedic research, which has contributed to the orthopaedic and wider community
- 2010 Evelyn Hamilton Trust Memorial Prize for Best Paper at Australian Orthopaedic Association Annual General Meeting.**
A Ten Year Prospective Comparison of Patellar Tendon Versus Four Strand Hamstring Tendon Autograft in Arthroscopic Reconstruction of the Anterior Cruciate Ligament
Best Scientific Presentation at Australian Orthopaedic Association Annual Scientific Meeting
- Best Poster Presentation at American Academy of Orthopaedic Surgeons Annual Meeting 2010**
Incidence of Repeat ACL injury 15 years after ACL reconstruction with the patellar tendon autograft
- 2011 Royal Australian College of Surgeons Award for Excellence in Surgery**
Awarded 13 times since inception in 1992
Nominees meet the following criteria:
- The highest level of surgical achievement by world standards
 - Leadership in the field of Australasia
 - Innovation and/or advancement in the field
 - Sustained standard and sustained worth of the innovation
 - The highest standards of surgical ethics
- 2013 Scientific Award**
15 Year Survival of Endoscopic Anterior Cruciate Ligament Reconstruction in Children and Adolescents
Best Scientific Presentation at ISAKOS Annual Scientific Meeting, Toronto, Canada
- John J. Joyce Award Finalist**
Increased Posterior Tibial Slope is Associated with ACL Graft and Contralateral ACL Injury after ACL Reconstruction
ISAKOS Annual Scientific Meeting, Toronto, Canada
- 2014 Best Scientific Poster Award**
Test-Retest Reliability of the Forgotten Knee Score

APKASS Congress, 13-15 April, Nara Japan

2015 John Joyce Award Winner

20 years outcome of isolated anterior cruciate ligament reconstruction with the patellar tendon autograft
ISAKOS Annual Scientific Meeting, Lyon, France

Scientific Award 2nd Place

15 Year Survival of Endoscopic Anterior Cruciate Ligament Reconstruction in Patients Aged 18 and Under
ISAKOS Annual Scientific Meeting, Lyon, France

2019 Member (AM) in the General Division of the Order of Australia

For significant service to medicine, particularly to the advancement of knee surgery

GUEST LECTURING AND TEACHING, NATIONAL AND INTERNATIONAL

PATENTS

- Worldwide:** Surgical Screw; for soft tissue fixation to bone. Design, development, manufacture and production. Clinical trials in personal series of 2,800 patients.
- Worldwide:** Cement Removal Blades; for revision cemented total hip replacement. Clinical trials and production of set.
- Worldwide:** A new surgical technique for endoscopic ACL reconstruction.
- Worldwide:** Set of power awls for endoscopic ACL reconstruction.

UNPATENTED DEVELOPMENTS

An interlocking hip prosthesis for revision total hip replacement proximal femoral deficiency. Design, testing, manufacture, production and clinical trials.
